

REMARKS/ARGUMENTS

Drawings

The Examiner has previously accepted the drawings, and Applicant appreciates the same.

Claim Amendments

The Examiner has allowed several of the claims and rejected others. These rejected claims have been canceled, the objected claims have now been made dependent on an accepted claim, which is claim 27 modified to include the limitation of claim 28 (which was objected to).

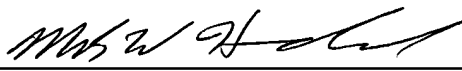

Therefore the Applicant submits that the amendments to the claims are consistent with the Office Action allowances and rejections and that the application is in a position to proceed to allowance.

Conclusion

Applicant therefore submits Claims 1-27, 29-30, 35-38 and 49-52 are in a position to proceed to allowance.

Respectfully submitted,
